·PERSONAL STATEMENT

 Hello! I am a Software Engineer from Spain, currently in Belfast, UK.

 I did my studies in Electronics and Automation Engineering, but my degree was really focused in industrial application, which wasn't for me, so I decided to learn how to code by myself thanks to courses and online resources.

 In February of 2017, I came to Belfast with an Erasmus Internship, and I've been working as a software engineer since then, currently working full time doing what I enjoy.

·WORK EXPERIENCE

02/2017 – Present
Software Engineer, axial3D - Belfast, UK.

Most of my tasks are of a full-stack developer. Improve, maintain and test both front and back ends of two different websites build with two different stacks. This involve the creation of new APIs, implementation in front end, testing, deployment, etc.

- Wordpress site with LAMP stack (http://www.axial3d.com)
- Webapp SPA with AngularJS, Java/Spring and MySQL/Hibernate (https://orders.axial3d.com)

Other tasks:

- Help the ML team with some tasks in Python / Flask / Celery.
- Creation of automation scripts with Ansible / Vagrant / Jenkins.
- Development with Python of CLI interfaces for our APIs.

·EDUCATION

09/2012 – 09/2016
Electronics And Automation Engineering Bachelor's Degree
Universidad de Extremadura, Badajoz, Spain.

Bachelor's degree in electronics and automation focused in industrial application.

- General engineering knowledge such as maths, physics, chemistry, thermodynamics, etc.
- Analog and Digital electronics.
- Embedded Systems (Assembler, C, RTOS).
- Automation and Industrial System Controls.

·SKILLS

- **Proficient:** HTML, CSS, JavaScript, jQuery, AngularJS, Java, Spring, MySQL, Hibernate, Git.
- **Familiar:** Python, Flask, PHP, Wordpress, Laravel, NodeJS, ExpressJS, MongoDB, C, C++, Verilog, Assembler, Jenkins, Ansible, Vagrant.

·LANGUAGES

Native spanish, proficient english, and spoken basics of chinese.
